

With a love for the Northeast (even as a Southerner), Ellie supports the Planning Potential teams in Harrogate and Newcastle across a range of projects.

BA Geography and Planning – Newcastle University

MSc Urban Planning – Newcastle University

Ellie joined Planning Potential in September 2024 having completed a Masters in Urban Planning at Newcastle University. She assists with research, planning appraisals, as well as the preparation, submission and monitoring of planning applications, whilst working towards her APC. Ellie splits her time between the Harrogate and Newcastle offices.

Outside of work, Ellie is a keen rugby player, who also loves playing tennis when she's not on long walks and (weather-dependent) camping in Scotland or the Lake District
